MUHAMMAD ZAIN KHAN

Frontend Web Developer

Karachi, Pakistan | +92 313 2190853 | zaincreationz56@gmail.com

PROFESSIONAL SUMMARY

Frontend Web Developer and Class 12 (ICS) student with hands-on experience building responsive, modern, user-friendly websites using HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS. Comfortable working with structured data (JSON) inside JavaScript applications, debugging code independently, and using Git/GitHub for version control. Freelancing since 2025 on projects spanning salons, restaurants, gaming platforms, community businesses, and personal apps. Currently pursuing Modern Web and App Development and AI & Data Science training at SMIT, with a long-term goal of becoming a Full Stack Software Engineer. Fast learner who picks up new tools and technical processes quickly and works reliably with minimal supervision.

PROFESSIONAL EXPERIENCE

Freelance Frontend Web Developer | *Fiverr* *June 2025 – Present*

Karachi, Pakistan

- Design and develop responsive websites using HTML5, CSS3, JavaScript, Bootstrap, and Tailwind CSS.
- Build responsive user interfaces optimized for desktop, tablet, and mobile devices.
- Develop website concepts and frontend solutions for salons, restaurants, gaming platforms, community businesses, and personal projects.
- Implement interactive UI components and client-side functionality using JavaScript, including working with structured JSON data to drive dynamic content.
- Create modern layouts with emphasis on usability, accessibility, responsive design, and visual presentation.
- Deploy and maintain websites using Vercel and Netlify.
- Use Git and GitHub for version control and project management.
- Develop customized website solutions based on project requirements and business objectives.
- Communicate clearly with clients to gather requirements and translate them into technical deliverables.
- Independently troubleshoot and resolve frontend issues, improving website responsiveness and functionality.

PROJECTS

NCG — Community Sports Booking Website *2026*

- Developed a responsive sports facility website concept with booking-focused user interface components.
- Designed mobile-friendly layouts for sports information, facility details, and booking interactions.
