KEY WEB DEVELOPMENT PROJECTS

Serviqo – Service Booking Web Application (MVP) [Live Demo: serviqo-kappa.vercel.app]

- Architected and developed a responsive multi-dashboard web application MVP connecting users and service providers seamlessly.
- Implemented dynamic user interface components using semantic HTML5 elements, structured CSS, and modern JavaScript.
- Managed source code with Git and GitHub, and configured automatic deployments through Vercel.

Developer Productivity & Utility Dashboard

- Built a centralized web dashboard featuring customizable UI widgets to streamline daily developer tasks.
- Utilized CSS Grid and Flexbox for modular component alignment and cross-browser visual consistency.
- Published and hosted the live application on Vercel.

TOTC Landing Page (Figma to Web Conversion)

- Translated complex Figma UI wireframes into functional, responsive web interfaces with pixel-perfect accuracy.
- Applied media queries and mobile-first CSS strategies to ensure fluid layouts across desktop, tablet, and mobile displays.
