HARMEEN AFZAL

AI Automation Developer | AI Agent Builder | Technical Content Creator

📍 Karachi, Pakistan ✉️ harmeensheikh543@gmail.com 📞 03212870850 🌐 harmeen-ai-lab.netlify.app

PROFESSIONAL SUMMARY

Highly motivated AI automation developer and agent builder with a strong focus on creating efficient, scalable AI solutions. Proven ability to design and implement n8n workflows and develop custom AI agents using ChatGPT, Claude, and Gemini APIs. Skilled in technical content creation and video production, demonstrating a passion for translating complex AI concepts into accessible and engaging demonstrations and tutorials.

CORE SKILLS

AI & Automation: n8n, AI Automation, AI Agents, ChatGPT, Claude, Claude Code, Prompt Engineering, Webhooks, API Integration, Workflow Design, Chatbot Development

AI Tools: Google AI Studio, Gemini, Agent.ai, ElevenLabs, Make, Pabbly

Technical: Python, HTML, CSS, JavaScript, WordPress, GitHub, Netlify, Cloudflare, Google Search Console

Creative & Video: CapCut, Canva, Video Editing, Screen Recording, Technical Tutorials, AI Tool Demonstrations, Captions, Zooms, Highlights, Transitions, Graphic Design

AI & AUTOMATION PROJECTS

- **n8n AI Automation Workflows:** Built scalable workflows to automate lead generation and email responses, leveraging custom nodes and API integrations, improving response time.
- **AI Content Creator Agent:** Developed an AI-powered agent using Claude and Gemini to research, write, and format technical articles and social media posts, significantly reducing content creation time.
- **AI Client Proposal Writer Agent:** Integrated OpenAI API with a custom web interface to automate the generation of tailored project proposals based on client briefs.
- **Jarvis AI Personal Assistant using ElevenLabs:** Designed and deployed a voice-activated personal assistant integrating ElevenLabs for realistic voice responses and customized task automation.
- **Business Website Chatbot / Customer Support Automation:** Implemented a sophisticated chatbot on a business website utilizing Pabbly and Google AI Studio to handle FAQ and improve customer engagement.
- **Harmeen Printers Website:** Created and maintained a comprehensive WordPress e-commerce website, incorporating SEO best practices and managing cloud hosting on Netlify.
- **Harmeen AI Lab Portfolio:** Designed and deployed a personal portfolio website showcasing AI projects and technical content, utilizing HTML/CSS/JavaScript and Netlify.

TECHNICAL CONTENT & VIDEO SKILLS

- **Technical Tutorials:** Produced comprehensive video tutorials on n8n automation and AI agent development, achieving high engagement and positive feedback.
- **AI Tool Demonstrations:** Created dynamic video demonstrations showcasing practical applications of tools like ElevenLabs, Gemini, and Agent.ai.
- **Video Production Workflow:** Managed the complete production process including screen recording, script writing, video editing using CapCut (captions, transitions, zooms, highlights), and graphic design using Canva.
