## *My Mission*

My mission is to turn creative ideas into meaningful and eye-catching designs that help brands stand out, communicate effectively, and make a lasting impression

# My Work Portfolio

# Social Media Post

## food and beverage

Creative and eye-catching Spring Rolls promotional post designed to highlight the product and attract customers.

## Automative poster

creative Jeep promotional poster designed to showcase the vehicle with a bold and adventurous visual style.

## Fashion Trends

A stylish fashion poster designed to showcase trends with an elegant and eye-catching visual layout.

# Logo and Branding

## coffe shop branding

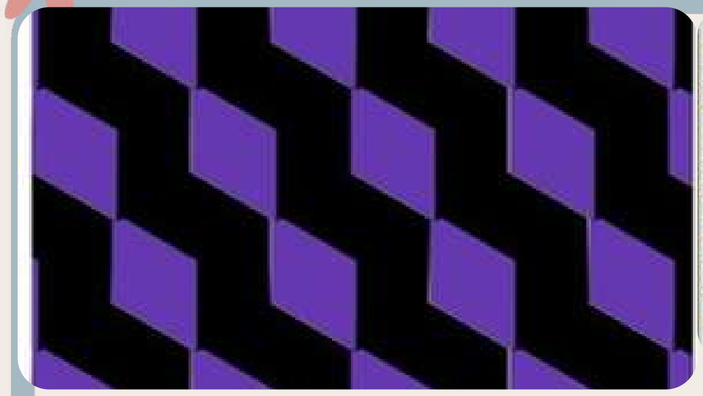

bold and creative coffee shop branding concept featuring a unique logo, warm color palette, and cohesive brand elements.

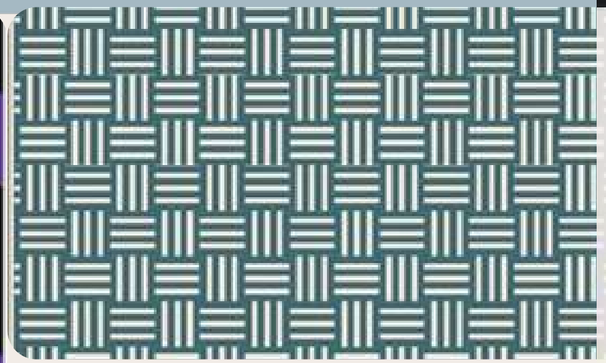

## logo

Describe the project you work on. It is also good to mention the name of the client.

# Pattern Designs

## 3D GEPMETRIC PATTERNS

created these geometric pattern designs using Adobe Illustrator.
The project explores different shapes, lines, colors, and repetitive elements to create visually attractive balanced patterns.
I experimented with Acompositions, symmetry, color combinations, and repetition to develop modern and creative designs.
Tools Used: Adobe Illustrator
Skills:
Geometric Shapes
Pattern Creation
Color Theory
Vector Design
Creative Composition
