Ghulam-E-Mustafa *Imran*

WEB DEVELOPER · WEB DESIGNER
SHOPIFY DEVELOPER · GRAPHIC DESIGNER

I'm an 8th-grade student from Karachi learning to build for the web by actually building. Alongside training at Saylani IT and AQS Computer Institute, I design and code websites, explore Shopify Liquid, and craft graphics in Photoshop, Illustrator and Canva. My GitHub projects are where I practise, and each one sharpens my code and my eye for design.

02 LUMIÈRE Bistro

FICTIONAL FINE-DINING RESTAURANT WEBSITE · MULTI-PAGE

A multi-page restaurant website built without frameworks or libraries — semantic HTML5, a CSS custom-property design system and hand-written vanilla JavaScript organised into ES modules.

- **Menu tools:** search, category and dietary filters, and sorting
- **Reservations:** validated booking form with a closed-day rule
- **Accessibility:** skip links, ARIA states, reduced-motion support
- **Ordering flow:** cart saved in localStorage, promo codes, demo checkout and order tracking
- **Gallery:** filterable photo grid with a keyboard-accessible lightbox
- **Responsive:** mobile-first layout from phones to large desktops
