## PROFESSIONAL SUMMARY

Dedicated Vibe Engineer with a passion for building modern web applications and AI-driven solutions through AI-assisted development and prompt engineering. Proficient in HTML5, CSS3, JavaScript, Bootstrap, and Python, with hands-on experience working with AI coding agents to accelerate development workflows, build MVPs, debug applications, and improve functionality. Interested in AI agents, automation, and modern software development technologies, with a strong focus on creating efficient and user-friendly digital solutions.

## WORK EXPERIENCES

**Vibe Engineer**

- Building modern web applications using AI coding agents and prompt engineering.
- Using AI agents for coding, debugging, testing, and improving applications.
- Building functional MVPs through AI-assisted development workflows.
- Working with AI coding agents to assist in software development.
- Creating prompts for planning, implementation, debugging, testing, and code improvement.

**Web Developer**

- Developing responsive and interactive websites using HTML, CSS, JavaScript, and Bootstrap.
- Creating clean and user-friendly web interfaces.
- Using Git and GitHub to manage development projects.

**Python Developer**

- Developing Python applications using core programming concepts.
- Applying problem-solving and logical thinking to programming tasks.
- Building small projects to improve programming and software development skills.

## EDUCATION

**Intermediate in Computer Science** **(2024 - 2026)**
*Bahria College*

**Matriculation in Computer Science** **(2014 - 2024)**
*Dar- e- Arqam School*

## KEY SKILLS

- Vibe Engineering
- AI-Assisted Development
- AI Coding Agents
- Prompt Engineering
- Python
- JavaScript
- Bootstrap 5
- HTML5 & CSS

## SOFT SKILLS

- Problem Solving
- Creative Thinking
- Communication
- Time Management
- Teamwork
- Adaptability
- Attention to Detail
- Willingness to Learn

## CERTIFICATES

- **Python Development** ***Dec 2025 - May 2026***
  NED Academy Karachi
- **Full Stack With Js and Python** ***Jun 2026 - Jul 2026***
  SMIT
- **Vibe Engineering with AI Agents** ***Aug 2026 - Oct 2026***
  SMIT
