Professional Experience

WordPress Developer & Shopify Developer | Solutions Grams (1 year)

Worked as a WordPress Developer at Solutions Grams for 1 year, where I created responsive websites, customized themes and plugins, and ensured optimal performance through SEO implementation and regular maintenance.

Front-End Web Developer | Planet Excellence Group (8 Months)

As a JavaScript Frontend Developer at Planet Excellence Group I have been developing responsive, user-friendly web interfaces using React, Firebase, and modern frontend tools.These roles have enhanced my skills in UI development, cross-platform compatibility, and performance optimization.

CMS Developer | Devstren (present)

Working as a Senior CMS + Frontend Developer, leading website development projects with a strong focus on CMS platforms and modern frontend technologies. I handle complete website execution from design to deployment, ensuring performance, responsiveness, and clean code standards.
