OBJECTIVE

To contribute to real-world web projects, grow as a full-stack developer, and build reliable digital products through continuous learning.

REFERENCE

Available upon request.

PROFILE

Full-stack web developer with hands-on experience building responsive, API-driven web applications using React, JavaScript, Firebase and Supabase. Currently a Web Development Intern, strengthening frontend craftsmanship and expanding backend skills with Node.js. Committed to clean, maintainable code and delivering real-world products.

WORK EXPERIENCE

Align Business System, Karachi 2026 - PRESENT

Web Development Intern

- Build and refine responsive frontend interfaces using modern JavaScript and React.
- Debug and resolve issues while following professional development workflows.
- Collaborate with team members using Git-based version control on production-oriented tasks.

PROJECTS

Edu-Manage: Education Management System React, Firebase

- Designed separate student and teacher portals with authentication and role-based access.
- Used Firebase for secure login and cloud data storage.

Committee Management App React, Firebase

- Built an app to manage committee members and their activities.
- Integrated a cloud database for real-time data handling.

GitHub Finder React, GitHub API

- Developed a search tool to explore GitHub users, profiles, repositories and contribution details.
- Integrated the GitHub REST API with proper loading and error handling.

Weather App React, Weather API

- Created a responsive weather app showing live data from an external API.
- Focused on a clean, interactive and mobile-friendly UI.

Business Data Scraper Python, Selenium, Pandas, BeautifulSoup

- Automated category-based business data collection from websites.
- Cleaned and exported structured results to Excel for research use.

EDUCATION

Full Stack Web Development

SMIT (Saylani Mass IT Training), Batch 18

Intermediate in Commerce 2024 - PRESENT

Matriculation in Science 2022 - 2024
