MODERN WEB APPLICATION DEVELOPMENT

Saylani Mass IT Training (SMIT)

2026

TECHNICAL SKILLS

Frontend:

HTML5, CSS3, JavaScript (ES6+), React.js

CSS Framework:

Tailwind CSS

Backend:

Node.js, Express.js

Database:

MongoDB

Tools & Workflow:

VS Code, Git, GitHub, Postman, RESTful APIs

SUMMARY

Junior MERN Stack Developer with strong foundational knowledge in HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), and React.js, paired with hands-on experience in Node.js, Express.js, and MongoDB. Completed MERN Stack Development training at Saylani Mass IT Training. Skilled in building responsive, user-friendly web applications, managing application state, and integrating RESTful APIs. Ready to contribute effectively as a MERN Stack Developer.

PROJECTS

E-COMMERCE PRODUCT LISTING WEB APP

- Built a dynamic product catalog application using React.js, React Hooks, and Tailwind CSS for a responsive user interface.
- Integrated external REST APIs using Axios and async/await to fetch, filter, and display real-time product data.
- Implemented smooth client-side page navigation using React Router.

USER MANAGEMENT & FORM VALIDATION SYSTEM

- Developed an interactive form application using React components, props, and state management to handle user inputs efficiently.
- Applied custom JavaScript (ES6+) validation logic and event handling to ensure accurate data submission.

MERN STACK TASK MANAGER API & APP

- Created a full-stack CRUD application using MongoDB, Express.js, React.js, and Node.js to manage daily user tasks.
- Designed RESTful API endpoints in Express and connected MongoDB for storing, updating, and deleting task records.

CORE DEVELOPMENT CONCEPTS

- JavaScript (ES6+, Arrow Functions, Array Methods, Promises, Async/Await)
- DOM Manipulation, Event Handling, and REST API Integration (Axios / Fetch)
- React Architecture (Reusable Components, JSX, Props, State Management, React Hooks, React Router)
- Backend & Database Basics (Node.js runtime, Express routing, MongoDB CRUD operations)
