Afsheen Kanwal

Frontend Developer | AI & Data Science Learner

Karachi, Pakistan | [Email] | [Phone] | LinkedIn: [your link] | GitHub: [your link]

SUMMARY

Student frontend developer from Karachi with hands-on experience building responsive, interactive websites using HTML5, CSS3, Bootstrap 5, and JavaScript (ES6). Currently learning React, Next.js, Advanced JavaScript, and Python through SMIT. Completed all course assignments and passed all quizzes. Preparing to start freelancing and planning to pursue a BS in Artificial Intelligence.

SKILLS

- **Frontend:** HTML5, CSS3, Bootstrap 5, JavaScript (ES6), Responsive Design
- **Learning:** React, Next.js, Advanced JavaScript, Python
- **Tools:** Git, GitHub, MS Word, MS Excel (Basic & Advanced), MS PowerPoint

PROJECTS

Personal Portfolio Website HTML, CSS, JavaScript

- Built a responsive portfolio to showcase skills, projects, and learning journey.
- Deployed demos on GitHub Pages and continue to improve it with new features.

Interactive Periodic Table HTML, CSS, JavaScript

- Developed an interactive web app displaying all 118 elements in a single-file project.
- Practiced structuring data and building dynamic, user-friendly interfaces.

Age Calculator HTML, CSS, JavaScript

- Created an app where users enter their date of birth to see their current and future age.
- Added colorful themes and a clean, easy-to-use design.
