MUHAMMAD RAHIM SIDDIQUI

Frontend Developer | MERN Stack Developer

Hyderabad, Sindh, Pakistan | +92 319 2488515 | rahim.siddiqui.dev@gmail.com

dev-portfolio-576.netlify.app | linkedin.com/in/muhammad-rahim-siddiqui | github.com/MUHAMMAD-RAHIM-SIDDIQUI

PROFESSIONAL SUMMARY

Frontend Developer and MERN Stack Developer with hands-on experience building responsive, full-stack web applications. Core stack: React.js, Next.js, Node.js, Express.js, and MongoDB. Delivered 4 end-to-end projects, including a full-stack learning management system with role-based dashboards and Stripe payment integration, and a food ordering platform with real-time admin–user chat. Practical experience with Firebase, Supabase, REST APIs, JWT authentication, Stripe, Git, and Postman. Currently enhancing MERN stack skills at SMIT (Saylani Mass IT Training). Fast learner with strong problem-solving skills, seeking an entry-level Frontend Developer or MERN Stack Developer role.

TECHNICAL SKILLS

JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, HTML5, CSS3, Bootstrap, Tailwind CSS, MongoDB, REST API Development, JWT Authentication, Stripe API Integration, Responsive Web Design, Firebase, Supabase, Git & GitHub, Postman.

SOFT SKILLS

Problem Solving, Time Management, Team Collaboration, Communication.

PROFESSIONAL EXPERIENCE

Self-directed portfolio projects, built independently end-to-end.

SkillNest — Full-Stack Learning Management System

React.js, Node.js, Express.js, MongoDB, Stripe Connect, JWT | Deployed on Netlify & Railway

- Built a full-stack course marketplace with 3 role-based panels — Student, Trainer, and Admin.
- Trainer Panel: create/manage courses, track sales and enrolled students, and onboard for payouts via Stripe Connect.
- Student Panel: browse and purchase courses through a secure Stripe checkout, and access content from a personal course library.
- Admin Panel: approve/reject trainers and courses, manage users, and monitor platform-wide revenue and transactions.
- Implemented JWT authentication with role-based access control and OTP email verification.
- Deployed the backend on Railway and the frontend on Netlify.

Food Ordering Web Application (Admin & User Panel)

HTML5, CSS3, Bootstrap, JavaScript, Firebase

- Built a full-stack food ordering platform with 2 dedicated panels (Admin and User), backed by Firebase for real-time data and authentication.
- Admin Panel: manage food items/categories, pricing and images, update order status, and respond to customer messages.
- User Panel: browse and filter the menu, place orders, track order history, and chat live with the admin in real time.

Multi-API Data Aggregator

React.js

- Built a React application that fetches, combines, and renders data from multiple external APIs into a single unified, dynamic interface.

Todo List Application (API Integrated)

React.js, Next.js

- Built a task management app supporting all 4 CRUD operations (Create, Read, Update, Delete) via API calls.
- Ensured smooth state management and instant UI updates on every task operation.

EDUCATION

Higher Secondary Certificate (Intermediate) — Govt Boys Degree College, Hyderabad

2026

MERN Stack Development Course — SMIT (Saylani Mass IT Training)

Currently pursuing (in progress).
