SUMMARY

Frontend Developer with hands-on experience building responsive web applications using React.js, Next.js, Tailwind CSS, Redux Toolkit, Material UI, and Node.js. Comfortable working across the stack, from building UIs in React to setting up Node.js backends and MongoDB databases. Completed a 3-month Web Development internship at BIC, Mehran University, Jamshoro, with a focus on e-commerce stores and business websites. Also have formal training in UI/UX design, so I can take a project from Figma to a working product.

SKILLS

Languages:	JavaScript, React.js, Next.js, Node.js, Express.js, Tailwind CSS, DaisyUI, Material UI, HTML, CSS
State / DB:	Redux Toolkit, React Query, Context API, MongoDB, MySQL
CMS:	WordPress, WooCommerce, Custom Themes, COD and Payment Integration
Tools:	Figma, Adobe Photoshop, Git, GitHub, Vite, Node.js, Microsoft Office

EXPERIENCE

Web App Developer Intern — 3 Months

BIC, Mehran University, Jamshoro

- Built and launched 7 live websites for startups and clients, specializing in e-commerce stores and business websites.
- Developed responsive sites using MERN Stack, Next.js, WordPress, and WooCommerce with custom designs and product catalogs.
- Integrated Cash on Delivery (COD) checkout and delivered projects from requirements through to live deployment.

PROJECTS

Rahbars: Pakistan's Smart University Admission Platform — *Live · 1000+ Students Helped* · rahbars.com

React.js · Node.js · Express.js · MongoDB · Tailwind CSS · Groq AI

- Built a full-stack MERN platform with search and detail pages for 100+ universities, helping 1000+ students through admission.
- Built an AI-powered admin panel using the Groq API to scrape, extract, and validate admission data, deadlines, and fee structures.
- Developed a Smart University Finder with a custom matching algorithm based on budget, location, and academic profile.
- Added a comparison tool so students can compare universities side by side, with an option to generate a PDF report.
- Set up a freemium model with Stripe for payments and cron-based email alerts for deadlines.

BIC Internship Projects (Live)

Delivered 7 live startup and client websites during the internship

- **aurika.online** – Fashion E-commerce Store
- **amnnisa.com** – Clothing Brand E-commerce
- **mankashay.com** – Fashion Store with COD integration
- **wearlab.store** – Streetwear E-commerce
- **tf-atelier.online** – Premium Fashion Store
- **mchemconsultants.com** – Business Website for Consulting Firm
- **bridgenova.info** – Business / Corporate Website

School Management System (SMS) — school-management-system-farooq.vercel.app

React.js · Redux Toolkit · DaisyUI · Tailwind CSS

- Built student registration, attendance tracking, grade management, and course assignment into one admin dashboard.
- Added real-time analytics, class schedules, and teacher management; used Redux Toolkit for state across all modules.
- Created a reusable component library to keep the design consistent and make the UI easier to scale.

ChronoHub: Watch Ecommerce Store — chronohub-watch-store-farooq.vercel.app

React.js · Redux · Tailwind CSS · Material UI · React Router

- Built a product catalog with category/brand filters, a price range slider, and sorting; cart persists using Redux Toolkit.
- Added multi-step checkout (COD, JazzCash, EasyPaisa, Card) and an admin dashboard with order tracking and revenue stats.
- Deployed on Vercel with GitHub CI/CD, so it auto-redeploys on every push.

EDUCATION

BS Computer Science (Final Year) — 2023 – 2026

IMCS, University of Sindh, Jamshoro

Web Application Development — July 2025 – July 2026

SMIT — Saylani Mass IT Training, Hyderabad

UI/UX Design Certificate Program — Sep 2025 – Feb 2026

BBSHRDB Institute, UoS
