Less chaos. More business.

COMPANY RESUME · 2026

Your whole business. One quiet place.

PROFILE

Aoient gives growing service companies one secure workspace for their people, leave, roles and dashboards, in place of scattered spreadsheets, chat threads and separate tools. Every person sees exactly what their role allows, and every number comes from the company's own records.

THE PROBLEM WE SOLVE

Spreadsheets
Staff details live in files nobody trusts and everyone edits.

Chat requests
Leave is asked in chat and lost by Thursday.

No clear access
Either everyone sees salaries, or nobody can find anything.

WHAT AOIENT DOES TODAY

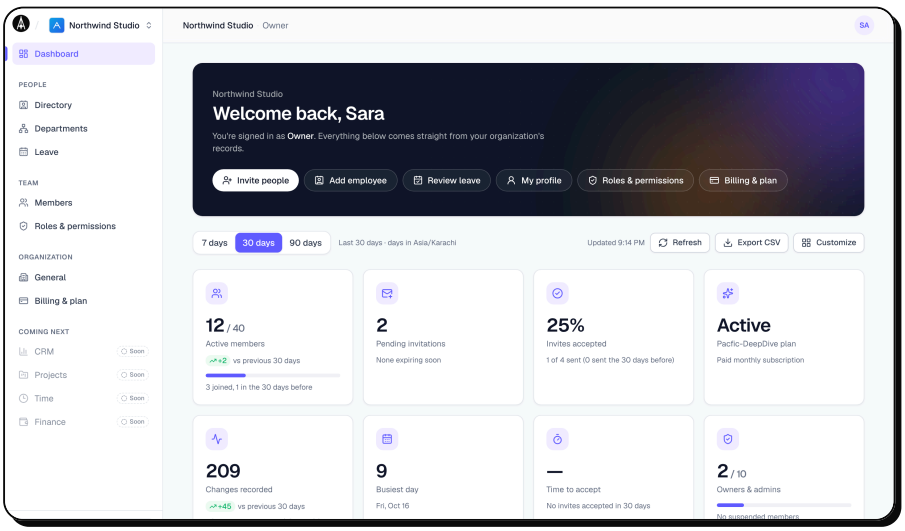

People
Employee directory with departments, managers, job details and private records that only the right roles can open.

Leave
Employees request time off, managers approve or decline, and the team sees who's away today.

Roles & permissions
Owner, Admin, HR, Sales, Project and Finance managers, Employee and Guest out of the box, plus custom roles.

Live dashboards
Each person gets a dashboard built from what their role allows, with real counts, trends and CSV export.

PRODUCT

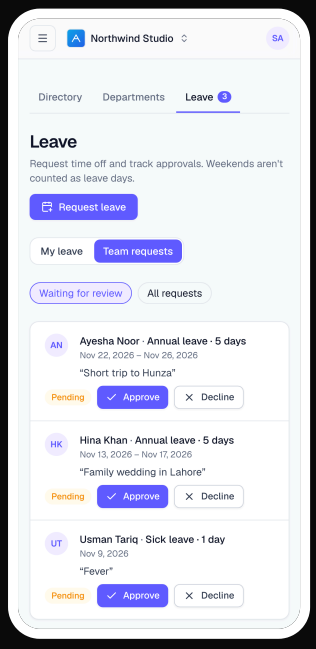

SECURITY FIRST

- The server checks membership on every request; a workspace ID from the browser is never trusted on its own.
- Each company's data is kept separate, with automated tests that try to reach another company's records.
- Paid access unlocks only after the payment provider confirms it, never from a "success" page alone.
- No secret keys in the code or the browser.
- Uploaded pictures are checked by their real file type before they're stored.

EVERYWHERE

- Any modern browser
- Desktop app for Windows, macOS and Linux, with its own window and automatic updates
- Phones and tablets from the home screen
- Shows clearly when you're offline

MILESTONES

Product live on the web
Accounts, workspaces, invitations, roles and permissions, and role-based dashboards.

People & Leave modules
Directory, departments, managers, private records, leave requests and approvals.

Billing with Paddle
Three plans, monthly or yearly, a 14-day free trial and PDF receipts.

Desktop app v1.0.0
Installers for Windows, macOS and Linux, built and published automatically.

CRM
Leads, contacts, deals and a sales pipeline.

Projects
Projects, tasks, milestones and team workload.

Time
Time tracking and timesheet approvals.

Finance
Invoices, expenses, payments and vendors.

WHY AOIENT

- **Calm by design.** One quiet place instead of ten noisy tools.
- **Honest numbers.** Every metric comes from real records, never sample data.
- **Built for service teams.** Agencies, studios and clinics, not giant enterprises.
- **Made in Pakistan**, for teams anywhere.
