PROFILE

Frontend and MERN stack developer with a strong foundation in UI/UX design. Skilled in turning Figma designs into responsive, user-friendly web applications using React, Node.js, and MongoDB. Hands-on e-commerce experience managing a Shopify store, with clear communication and a drive to keep learning and building.

SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Bootstrap, jQuery
Backend & Database: Node.js, Express.js, MongoDB, Mongoose, REST APIs
Design & Tools: Figma, Git, GitHub, Shopify
Soft Skills: Communication, Teaching, Time Management, Patience
Languages: Urdu, English

WORK EXPERIENCE

Shopify Store Manager 10/2025 – 01/2026
E-commerce Store Karachi, Pakistan

- Managed daily store operations including order processing, product listings, and customer queries.
- Ensured accurate and timely order fulfillment to maintain a smooth customer experience.

COURSES

MERN Stack Web Development 10/2024 – 12/2025
Self-Paced Online Program Karachi, Pakistan

- Developed RESTful APIs with Express and Node.js, including JWT authentication, input validation, and error handling.
- Designed MongoDB schemas with Mongoose, handling relationships, indexing, and efficient querying.
- Built responsive, component-driven React interfaces using hooks, state management, and API integration.

UI/UX Design & Product Prototyping 03/2024 – 04/2025
Self-Paced Online Program Karachi, Pakistan

- Covered user research, information architecture, wireframing, and high-fidelity prototyping in Figma.
- Applied UX principles including visual hierarchy, Gestalt laws, and accessible color contrast to design intuitive interfaces.
- Built responsive layouts, reusable components, and design systems using auto layout and variants.

Frontend Web Development 08/2024 – 12/2024
Aptech Computer Education, North Nazimabad Karachi, Pakistan

- Learned HTML5, CSS3, JavaScript, Bootstrap, and jQuery to build responsive, user-friendly web pages.
- Developed frontend projects and managed code with Git and GitHub.
