PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in independent and client projects since December 2024. I build custom management systems, e-commerce stores with admin and POS features, dashboards, and AI chatbot and workflow automations using React.js, Next.js, Node.js, Express.js, PHP, MySQL, and MongoDB, with REST API integrations. At Pixel Forge Labs, I build and deliver digital solutions for growing businesses. Also an experienced web development instructor, mentoring beginners in person and online.

TECHNICAL SKILLS

Frontend	HTML, CSS, Bootstrap, JavaScript, React.js, Next.js
Backend	PHP, Node.js, Express.js, REST APIs, MySQL, MongoDB
Tools & Others	n8n (workflow automation), Chatbot Integration, Git, GitHub, Responsive Design, Admin Panel Development
Soft Skills	Client Communication, Requirement Gathering, Teaching & Mentoring

EXPERIENCE

Freelance Web Developer — Pixel Forge Labs Dec 2024 – Present

- Receiving and delivering client orders via pixelforgelabs.edgeone.dev
- Developed dynamic websites and web applications using HTML, CSS, Bootstrap, JavaScript, React, PHP, Node, Express, MongoDB and MySQL
- Built real-world projects: Institute Management Systems, Admin Panels, Complaint Management Systems, and POS Systems
- Designed responsive UIs and worked directly with clients to gather requirements and deliver tailored solutions

Web Development Instructor — SITES SOFTZONE INSTITUTE Dec 2025 – Sep 2026

- Teaching Full Stack Web Development to beginner-level students
- Conducting hands-on training sessions and mentoring students on best coding practices

Online Web Development Instructor — Web Tech Academy May 2026 – July 2026

Delivered classes through webtechacademy.edgeone.app

- Teaching HTML, CSS, Bootstrap, JavaScript, and PHP to students remotely
- Developing structured course content and hands-on exercises for online learners

Web Development Instructor — VII LABS INSTITUTE Aug 2025 – Dec 2025

- Taught HTML, CSS, Bootstrap, and JavaScript to beginner-level students
- Helped students develop logic-building and problem-solving skills through hands-on exercises

PROJECTS

E-Commerce Website

Tech Stack: *HTML, CSS, Bootstrap, JavaScript, PHP, MySQL*

- Building a full-featured e-commerce platform with product listings, cart, and order management & more features
- Implementing secure user authentication, admin panel, and rider panel
- Customer Panel , Rider Panel & Admin Panel

Complaint Management System (CMS)

Tech Stack: *HTML, CSS, Bootstrap, JavaScript, PHP, MySQL*

- Developed a full-featured complaint management system for a repair shop
- Managed service types (repair, service, other) with complaint tracking and customer records
- Implemented admin login, CRUD operations, and a complete admin panel

Pixel Forge Labs — Agency Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT, Mongoose

- Developed a complete **Agency Management System** for managing clients, employees, projects, invoices, leads, expenses, website forms, portfolios, and employee salaries with role-based access for **Admin, Manager, Sales Manager, and Employee**.
- Implemented **JWT authentication, RESTful APIs, MongoDB/Mongoose, project assignment & progress tracking, payment management, notifications, email integration, document uploads, and dashboard analytics**.
- Built a responsive and user-friendly **React.js frontend** with a secure **Node.js/Express.js backend**, providing centralized management of Pixel Forge Labs' business operations.

Pixel Forge Labs — Cosmetic Shop Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT, Mongoose

- Developed a complete **Cosmetic Shop Management System** to manage products, inventory, batches, purchases, suppliers, customers, sales, returns, payments, and business operations with role-based access control.
- Implemented **multiple pricing levels for Retail, Wholesale, and Parlor customers**, barcode scanning, batch-wise inventory management, expiry tracking, thermal/A4 invoice printing, supplier and customer ledgers, credit notes, and return management.
- Built comprehensive **sales, purchase, stock, expiry, and business reports**, along with payment tracking and automated calculations for improved business management.
- Developed a responsive **React.js frontend** and secure **Node.js/Express.js backend** using MongoDB/Mongoose, providing an efficient and centralized solution for managing cosmetic shop operations.

School Website

Tech Stack: *HTML, CSS, Bootstrap, JavaScript*

- Designed and developed a fully responsive school website
- Included pages for Admissions, Courses, Announcements, Board of Directors, and Contact

EDUCATION

Intermediate — Govt. Islamia Science College, Sukkur 2024 – 2026

- Successfully completed Intermediate with an **A Grade**.

CERTIFICATIONS & ACHIEVEMENTS

- **Web Development Training —** VII LABS - 2025
- **Web Development —** Sukkur IBA University - 2026
- **Modern Full Stack Web Development —** Titan Taj Institute collaboration with Saylani Mass IT Training - 2026
- **Mini Hackathon Participation —** SMIT & TAJ INSTITUTE - 2025
- **Talent Award —** Govt. Islamia Science College - 2025
- **Certificate of Achievement —** TAJ INSTITUTE OF TECHNOLOGY - 2026
- **Web Development Remote Internship —** Nova Stackhub - 2026
- **Success Mindset —** HP LIFE - 2026
- **CIT -** Paradise Institute - 2021
