PROFESSIONAL SUMMARY

Flutter app developer and frontend web developer who turns ideas into polished mobile apps and responsive web experiences, with care in every detail. Skilled in HTML, CSS and JavaScript, with working knowledge of Dart and C/C++. I build clean, intuitive interfaces that look great on every screen size and are ready to grow.

WHAT I DO

▸ Flutter App Development

Mobile experiences shaped around your idea: intuitive to use, carefully crafted, and ready to grow.

▸ Frontend Web Development

Responsive, engaging websites that make a strong first impression on every screen size.

SELECTED PROJECTS

Facebook Login Page Clone

github.com/imranalise/facebook

A frontend recreation of Facebook's familiar login page, built as a hands-on web development project.

`HTML` `CSS` `JavaScript`

Academy Website

github.com/imranalise/academy-website

A website project for an academy, bringing its learning-focused presence to the web.

`Frontend` `Web Design`

Open to opportunities • Let's build something great together
